

CITY OF LEBANON

2025 Spring YARD WASTE COLLECTION SCHEDULE

Collection shall commence Monday, April 14th at 7:00 AM

The collection period will be for two weeks only in length, ending Monday, April 28th

ALL CITY RESIDENTS ARE TO PLACE YARD WASTE CURBSIDE BY 7:00 AM, MONDAY, April 14th

While we ask that residents have their yard waste placed curbside by the first day of collection, city crews will be working the entire period collecting yard waste. Once an area is cleaned, no additional materials may be placed curbside for collection.

Do not place materials curbside until the weekend prior to collection, April 11th – April 14th by 7:00 AM. In case of rain, this will help prevent the chance of materials clogging the storm sewer drains.

Do not place materials curbside after the city crew has passed your street. The crew will make one pass by each street. If you miss this collection pass, we will not return and consideration to purchasing an access card for the Yard Waste Recycling Facility is recommended.

Yard waste materials must be placed in the street, 1 foot from the curb for collection. Vehicles must be parked at least 10 feet from the yard waste piles to allow room for city equipment to maneuver while cleaning up the yard waste. Branches may not be longer than 6 feet in length. Branches longer than 6 feet in length cannot be accepted.

Please do not block the storm sewers when placing items curbside for collection.

The amount of material per household permitted for collection will be comparable to one pick-up truck size load. Material exceeding this maximum allowed amount or size described will not be collected. In these cases, residents are encouraged to purchase an access card for the Yard Waste Recycling Facility.

Collection will ONLY include hedge trimmings, branches and garden residue. NO leaves, lawn grass, ornamental grass or non-organic materials allowed. Please do not place bricks, pavers and other similar items in the piles, as they could damage city equipment. Make sure overhead trees have sufficient clearance. It is suggested that all trees are trimmed to a height of 14 feet for equipment clearance.

City residents unable to participate in curbside collection may purchase an access card for the City of Lebanon Yard Waste Recycling Facility located at 893 N. 8th Street. The initial fee for an access card is \$40.00 for residential yard waste; there is a \$35.00 renewal fee. Questions concerning this program may be directed to the Department of Public Works at 717-639-2800, 735 Cumberland Street (2nd Floor), Lebanon, PA 17042. Thank you for your cooperation
